THE DIRECTOR OF CENTRAL INTELLIGENCE

May 13, 1976

STATINTL Dear [redacted]

I want you to know how delighted I am
STATINTL at the prospect of the [redacted]
team in the Office of Inspector General.

It goes without saying that the future
will require the most effective and imaginative
efforts possible to give us good internal over-
sight while not stifling the creativity so essential
to intelligence work.

I want you to know that you are held in
the highest esteem by all your associates.
I am very much aware of the competence you
displayed in meeting the probes of the past
18 months. You have contributed a very great
deal to this Agency and I know you will be
instrumental in helping us draw the blueprint
of our future.

Sincerely,

STATINTL
